

SEASHELL
AQUARIUMS LTD

Instructions

Please follow these instructions carefully prior to filling your Aquarium

- Please check your aquarium to ensure there is no visible damage and it is properly packaged prior to transporting.
- An aquarium must be placed on a stable base that is correctly designed to take the weight of the aquarium when full.
- Please ensure that the base of the aquarium is placed on is flat and completely level.
- Never be tempted to place your aquarium on a chipboard cupboard or shelf not specifically designed or purposely built to hold an aquarium.
- A layer of polystyrene, cork or high density foam must be placed under your aquarium.
- When positioning your tank, take into consideration opening doors and cupboards where it could easily be knocked and damaged by the door or handle for example. Take into account any other hazards that may interfere with safety of the aquarium.
- Position the aquarium close too, but not directly over or in front of any electrical power socket. Please be wary of spillage or condensation close too electrical supplies when siting the tank as this can cause life threatening injury. As a rule of thumb if you can place one hand into the aquarium you should not be able to reach the electrical socket with the other.
- Never try to lift or move the aquarium by its bracing bars or any cross members and never try and lift or move an aquarium that has water in it.

Failure to comply with these instructions will result in the guarantee for your aquarium being null and void.

SEASHELL
AQUARIUMS LTD

Your Guarantee

The Guarantee on Your Aquarium is valid provided the instructions overleaf have been followed

Seashell Aquariums are guaranteed for 1 year from the date of purchase against leakages only provided that:

- Any leakage does not arise from damage caused to the aquarium by impact, breaking, misuse, neglect or any other form of damage.
- The silicone seals on the aquarium have not come into contact with any chemicals and or sharp objects.
- No unauthorized person or persons has repaired or attempted to repair or alter the aquarium in any way.
- The guarantee does not cover any of the panels breaking, it remains the purchasers responsibility to ensure that the aquarium is sited as per the instructions stated overleaf. Namely on an evenly supported, flat and level surface.

- Damage resulting from improper handling or siting remains the responsibility of the purchaser.
- If at any time the aquarium is inspected or repaired for ANY REASON, and it is found to be the fault of the purchaser a charge may be made to cover any costs involved in this.

PLEASE NOTE: This guarantee is only in respect of the aquarium and does not cover any direct or indirect loss or expenses incurred that may arise from an aquarium leakage.

If you have need to claim under the guarantee you must provide a proof of purchase which shows the date of such, it is recommended that you keep your retailer purchase receipt for this purpose.

WARNING! Be sure to shut off electric supply at mains or circuit breaker before installing. The safeguards and instructions on this leaflet are not meant to cover all situations and conditions and are provided as a guide. Commonsense, Care and Caution need to be taken whilst installing and using this product.
